Dear Diary :-

Well, can you believe it? I finally made it - We finally made it. It's graduation day - Ta-da!!! It's so weird to think that I'll never be able to "hang out" in high school again. You know - It's really kind of sad. I mean, I guess I really will miss this place. All the friends I've made, things I've learned. It's funny how I always wanted to leave Jericho, and now that I have to, I think I'm going to miss it! --- I'm scared, you know I'm actually scared! But I'll always have the memories of Jericho.

In fact, I can remember when I . . .

And so I turn to

memories to pass

the time away

Each face that flashes back to mind
seems as it was untouched by time

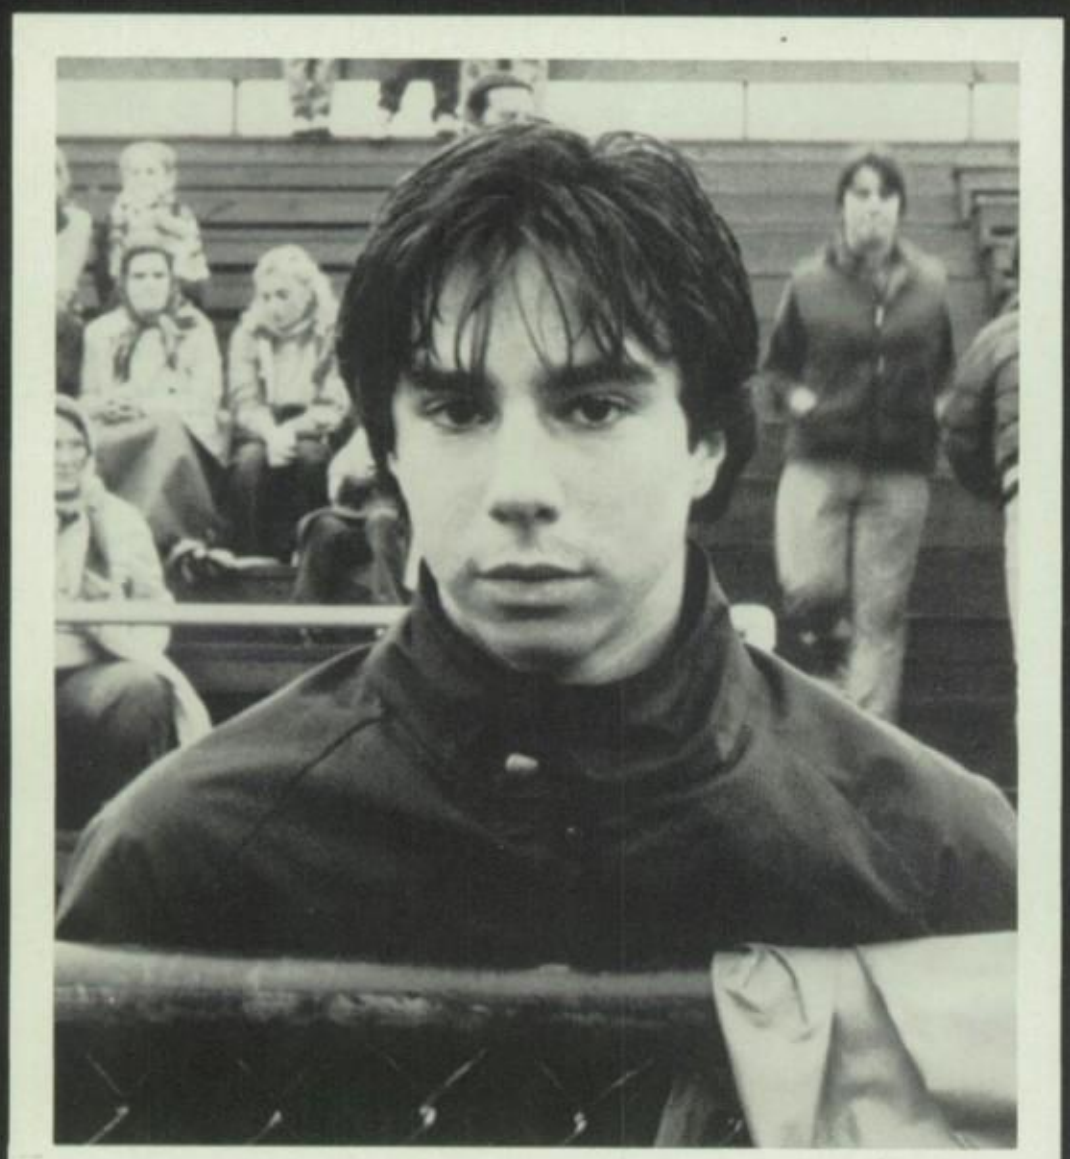
Oh Jayed

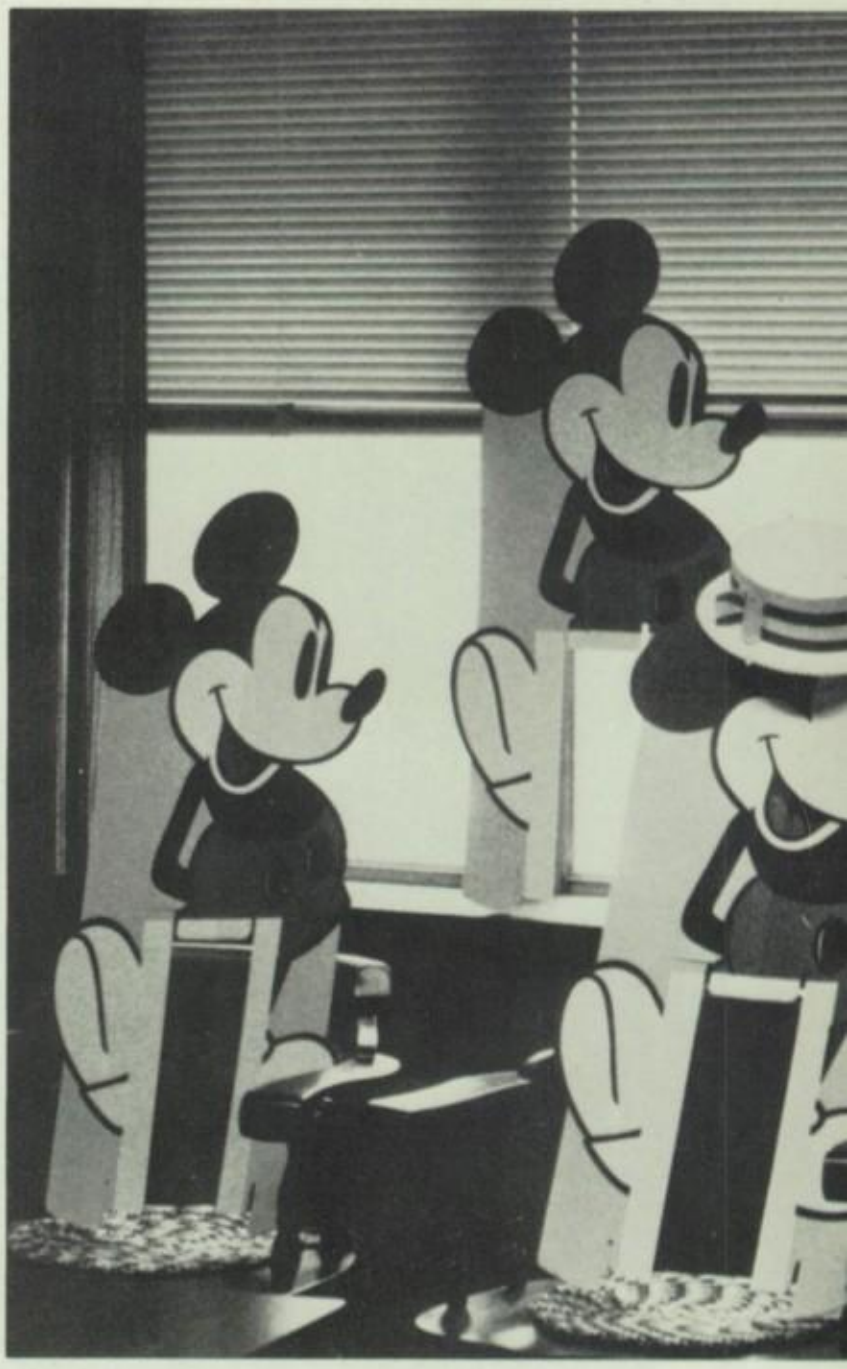
I can't recall quite all the names

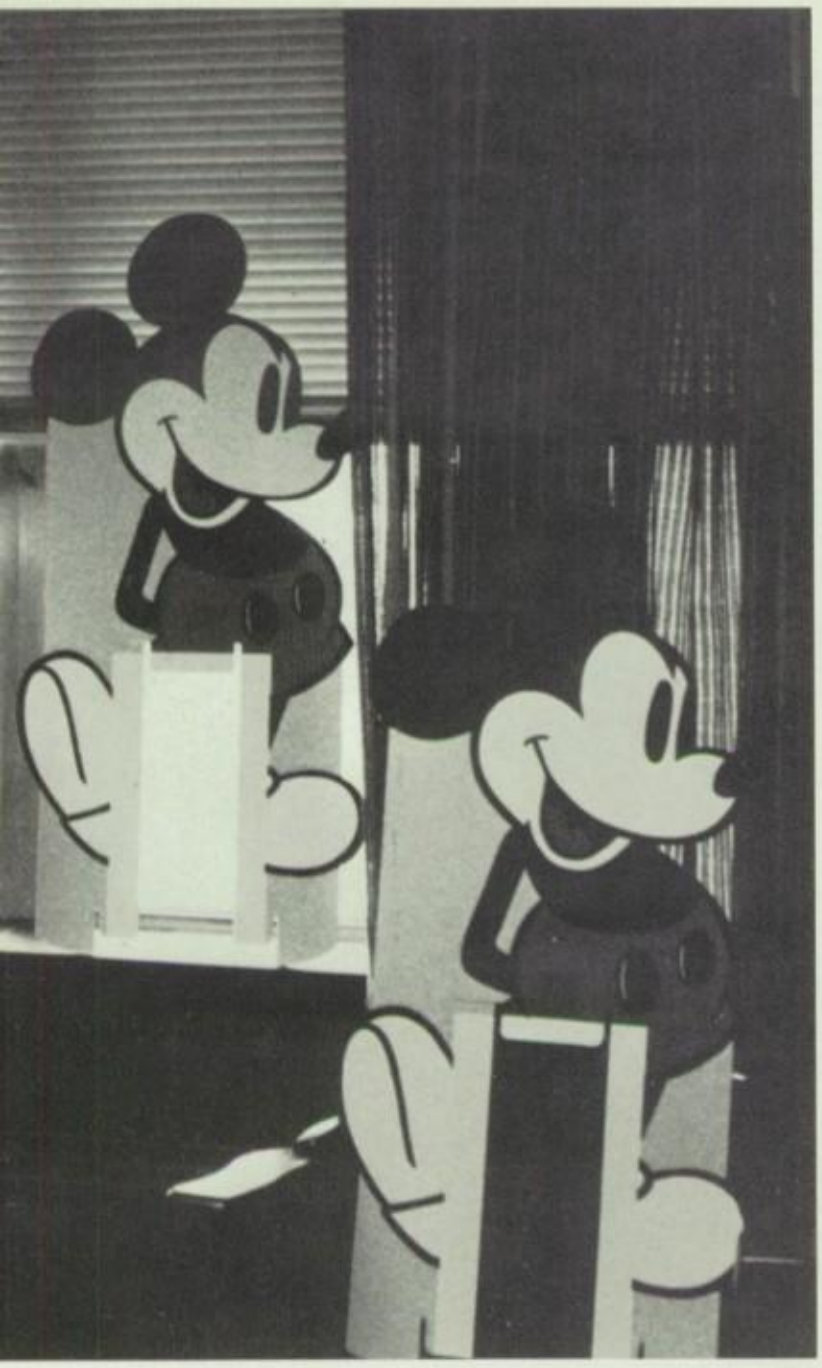
Each one is precious all the same

Dear Cathy,
Although we've not been that close in high school, we've had lot's of fun together Your sleepover and Ruth's Swimming (Syosset) and Fayala. Hope we will meet again and soon. love Pauline XOX

How strange to think, how many friends were lost, somewhere behind







Where are they now

How I miss
those companions

Who walked

the canyons

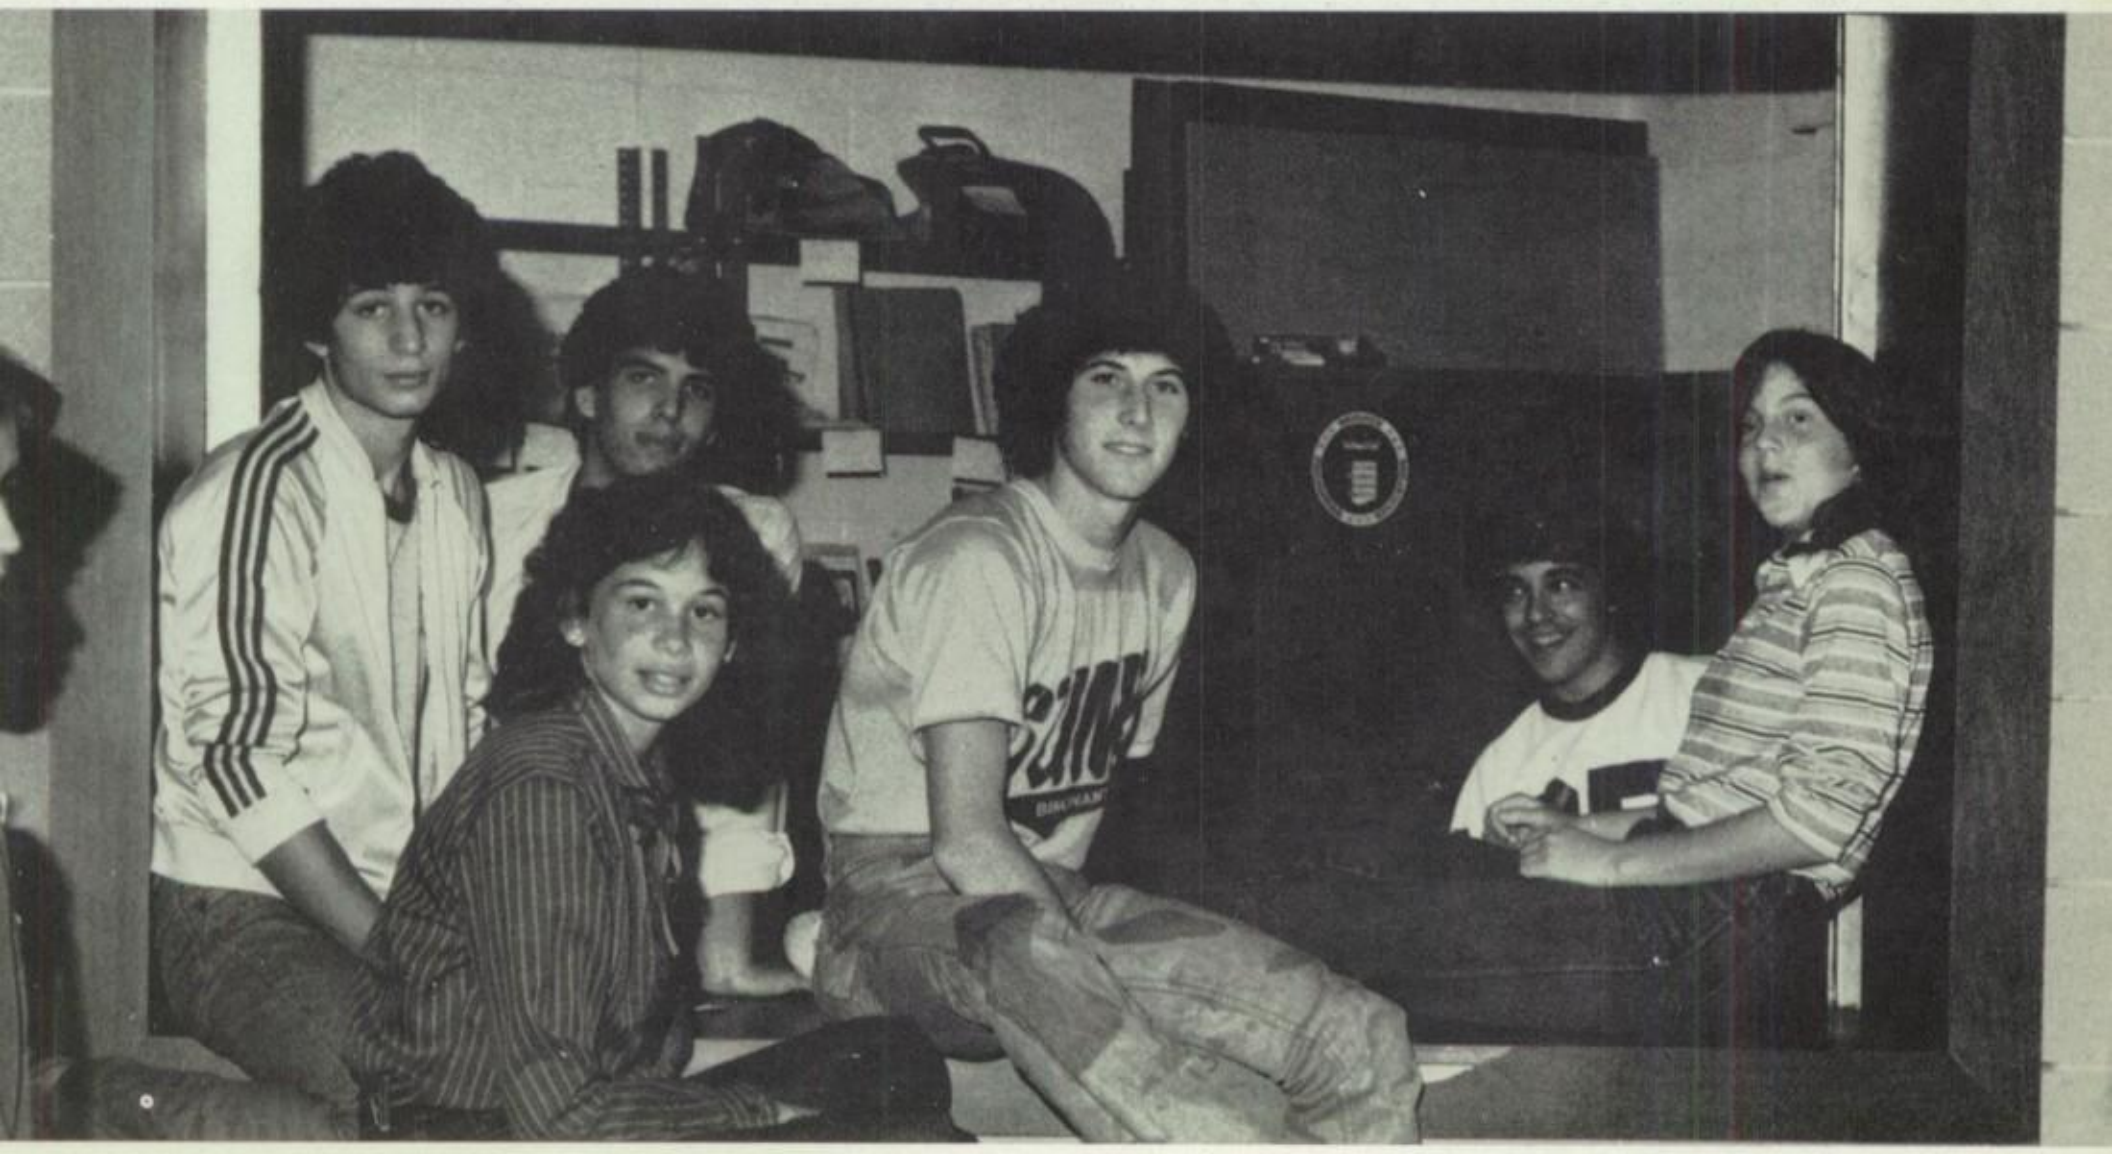
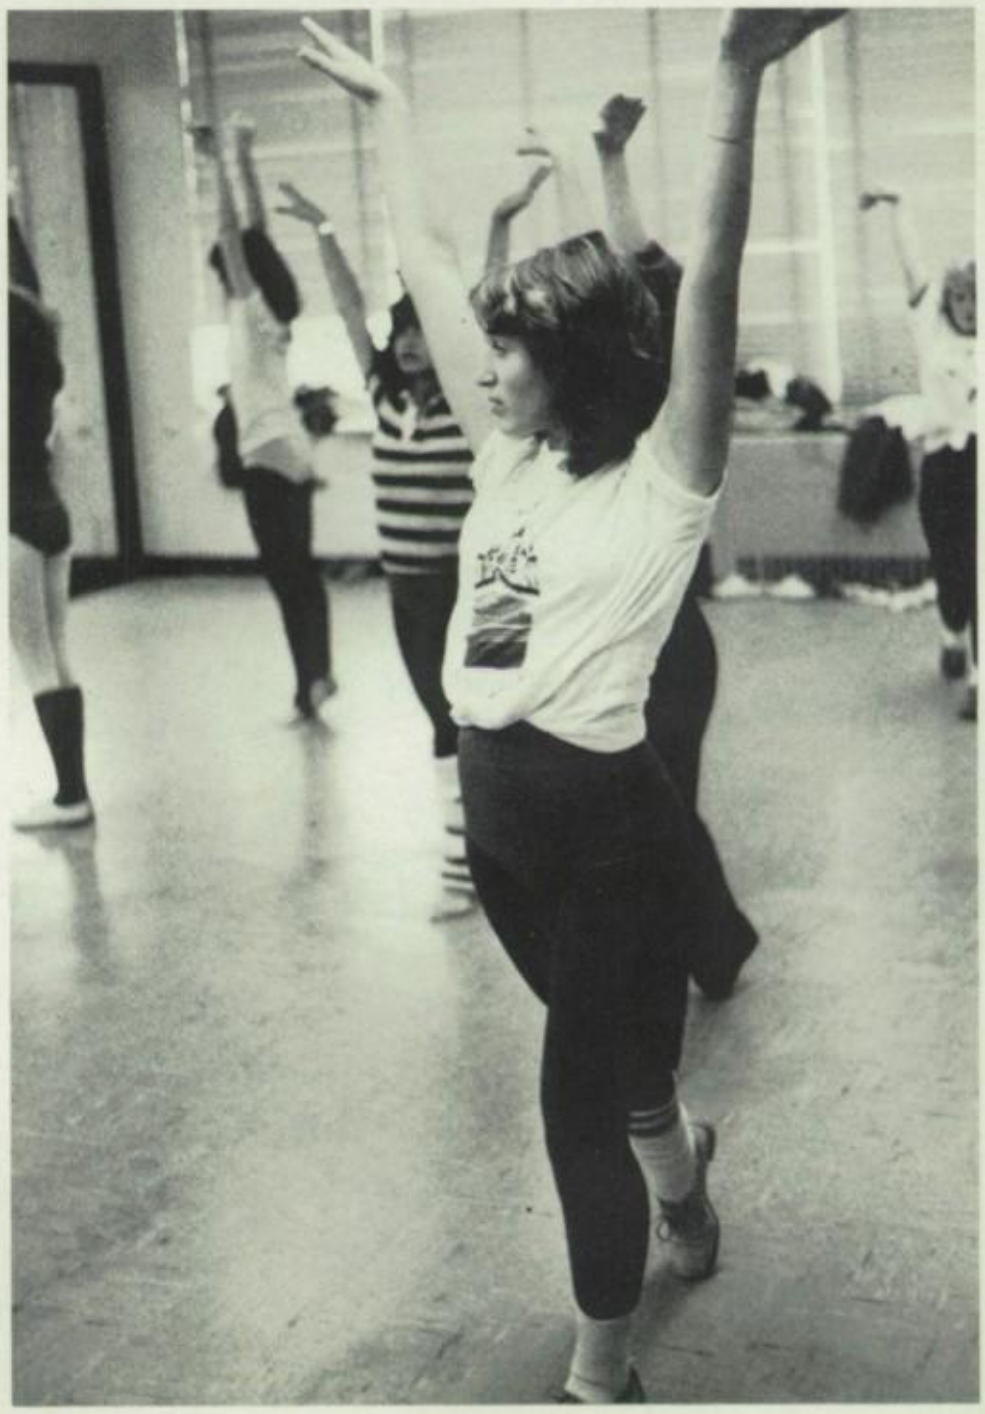
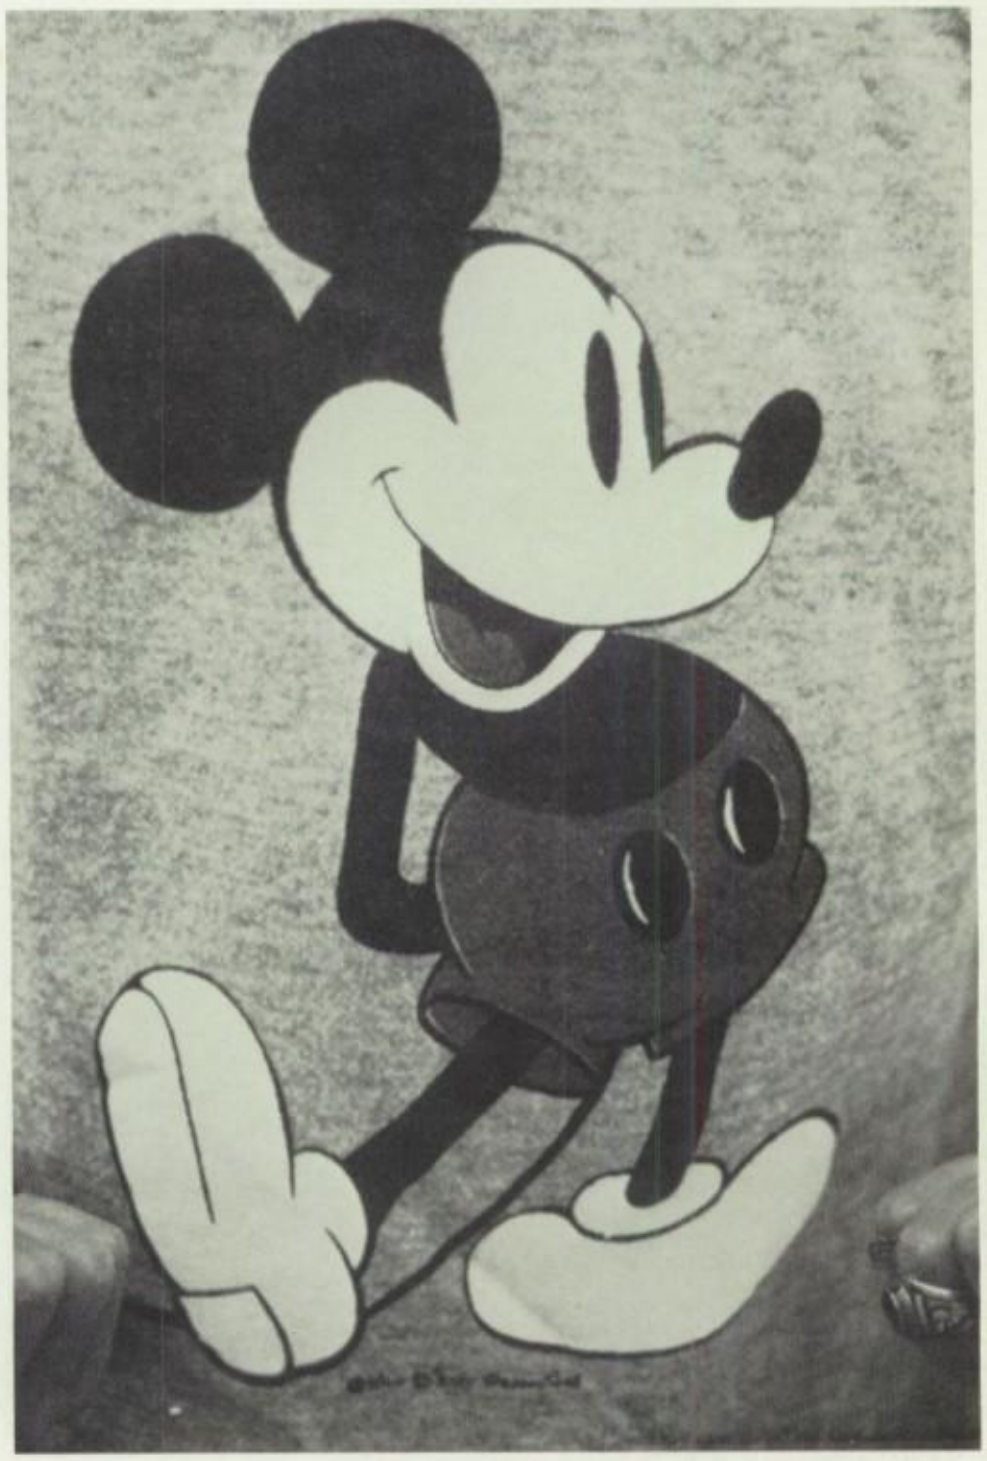
By my side
where are they now



Like so many crazy dancers



We live only for the answers
in a song



But that was long ago,
Where are they now?

Coach Bob Frink, considers the championship season and all of the outstanding performances by his players as a mild accomplishment. The Varsity team was led by some of the top "pigskin" players in Nassau County, including the Jayhawk's Most Valuable Player, in the Island Conference Football Division, Ronald Fenaroli; Andrew "Golden Arm" Rumpelt, and Scott "McGruder" Howell.

In addition, the championship team consisted of determined, hard hitting John Magliocco, Scott Offerman, Anupinder Singh, Mike Friedland and Joe Caputo.

J.V. Soccer

This year's J.V. soccer team was just another indication of the great improvement of the Jericho soccer program. This young and inexperienced club, surprised everyone with a great record of seven wins and five losses.

With every good team, there are always good players, and that was evident with leading scorers Alan Tuckman and Joe Nankoff. They provided the team with leadership and confidence with their scoring ability. The goal tending was another fine contribution with Mike Benedetto defending for the Jayhawks. Cross Country

CROSS COUNTRY

A grueling test between your mind and body. This is X-country. Up the hills; Down the hills. Around the trees; Stepping into puddles. This is X-country.

This year's team did all of that, plus. Led by county finalists Lenny "Girken" Berlin and Mike Dayan, the team showed what winning is all about. The team's record was 6 wins and 9 losses and are getting ready for a better season next year. The team will be losing great senior runners such as Michael Schmall, Lenny Berlin and Robert Novak, but will have a promising future with Junior Mike Dayan and three Sophomores. Special notice must go to John Decker who as a 7th grader out ran many of the top high school runners, and to "POS," the top "Girken" of the year.

Seniors

Senior History

AS COMPILED BY
TRACEY MARGOLIN

256 students give or take 10
Never to be sixth graders again.
Older and wiser, more mature than before
The minute they walked through that Junior High door.
They thought they were cool, feeling quite pleased
But eighth and ninth graders needed someone to tease.
So they were told tales 'till they gasped and they groaned
'Bout the drugs in the bathroom that made you get stoned.
And when directions were needed to Room 204
They were told with pleasure "on the third floor."

So many new students with names to forget
All different schools were the friends that they've met.
Classes and rooms in every which way
And electives to fill up their nine-period day.
French, Hom Ec., and Woodshop too
Chorus and art, to name but a few.
But with all these classes came tests galore
And the result of that was studying more.
But the studying paid off, or maybe not
With evaluations to show just what they have got.
Though the academic part was kinda hard
Social life's included within one G.O. card.
Because for the holder of the card, prices aren't the same,
It was cheaper for a dance or a basketball game.
For the bicentennial year, what did they do?
They painted the ceiling red, white and blue.
To sell food and stickers to parents at night
Who came to see the history sights.
And there they learned the definition of culture that was best
"An organized system" — well, they know the rest.
And Social Studies took them on many field trips
Mystic Seaport, where they looked at ships.
And when they needed to study the Colonial age
They paid a visit to Old Bethpage.
Inside wasn't the only place they learned.
They had phys-ed 'till the gymnasium burned.
It was repaired with a very high cost
And a few months of gym is what they all lost.
Then the summer came, and boy, was it great!
And when it passed, they were in grade number eight.

The highlight of this grade was to be able to sing
In Mr. Alyn's chorus, it was the big thing.
Can't Stop Dancin, and He Ain't Heavy, He's My Brother;

You Don't Have to Be a Star, You've Got a Friend,
and many others.
Songs by Elton John and Kiki Dee
And Love Me Tomorrow and Bohemian Rhapsody.
They practiced and practiced 'till it all came out right
And performed them for parents at a concert at
night.
The Spirit Week competition was the night of the
year
And the fact that we'd win was evidently clear.
The theme they picked was the Wild, Wild West
And the grade pulled together to do their best.
And there was Theme Day, Dress-up Day, and a day
to wear hats
And you know they were winning, how about that!
At the end of the week came the grande sports nite
It was an athletic, dance, and a gymnastic fight.
They did lose sports nite, though they were given
most cheer
But they weren't terribly upset, there's always next
year!

Then after that summer, they all had it made
'Cause now, finally, they were in the 9th grade.

They were the oldest kids in the school,
And they had every reason for feeling real cool.
But new classes made them take a different path
With ½-year Speech and Algebra Math.
Now Speech was an easy class if you knew
How to give a 3-minute speech on a "How to . . .".
There was more to it than that, like the debate that
they got
Pro or con marijuana, were you for pot or not?
And Algebra was fun, right? They were given tests
Though nobody cared, they had to find X.
By the end of the class, they all had to cram
For their first "ta da" Regents exam.
Sports week again, and they had a winning team
And they picked the big apple for this year's theme.
All through Spirit Week, both teams were practically
tied
It was all up to the Sports Nite Competition to decide.

They killed them there, they had it made
And the winners were . . . the 8th grade?
They were the best grade then, (they still are)
But they all know it was fixed, right, Mr. R.?
But they forgot the past (though some are mad still)
And prepared for their trip to Sno Hill.
There they roughed it, climbed hills on their hikes
Learned about trees, birds and the likes.
For the three days there, all went fine
Even though it rained most of the time.
They did learn Man and Science, but there was time to play
Like when the award was given to "Turkey of the Day."
Receiving that award was no reason to boast
It was given to who fell in the water most.
But when the 3 days were over they had to pack
But as counselors, they swore they'd all come back.
Well the school year closed, time did fly
Because when they returned it was to the Senior High.

Well, they were back again as bottom of the crop
With 3 more years to climb to the top.
Just like before, they had to adjust to the switch
To try to find which room was which.
Compared to now, Junior High electives were mild
A course on money, or the care of a child.
2 classes with Regents, but they were pros, as you

see
A class in Bio and Geometry.
Instead of one period, the Junior High way
Bio was 2 — every other day.
That period was lab, which was spent with objections
Of experiments including the piglet dissection.
Geometry was a class that was a little ho-hum
With the memory of postulates and required theorems.
And on those tests they would feel like a goof
If they couldn't figure out that addition proof.
But when they didn't have class, school was a ball
Thanks to the periods known as study hall.

During this time nothing was a can't
They were free to eat, smoke, or galavant.
Yes, in front of the school, they smoked and hung out
Hey listen, that's what tenth grade's all about!
And when the weather turned nice, they would all go
To play frisbee, at the "country club of Jericho."
But the fun of 10th grade ended as everyone feare
And they were headed for their harder Junior year.

Yes, the Junior year's the hardest of all the rest
Complicated by all those standardized tests.
First there were P.S.A.T.'S, they said they were fake
They were only to prepare them for the others they take.
But it was the S.A.T.'S they'd be upset if they blew
For they decided what college everyone would get into.

So they took the test once, and then maybe twice
'Till they felt that their answers were very precise.
Then the day arrived when the scores came through
the mail
Darn, there goes Harvard, Princeton and Yale.
There was one more test, called ACT'S
They only took them, if they so pleased.
October marked the first Homecoming Parade
With floats constructed by every grade.
The most original float, received a prize
And they won — what a surprise!
And speaking of winning, a new tradition begun
A Senior High Sports Night, and guess who won?
3 grades together, and the Juniors did shine
And though I hate to say it, it was about time.
Sports Nite was fun, but the funniest thing
Was when they converted the cafeteria into a Burger
King.
It was all redone with yellow chairs
And orange booths were everywhere.
The school year's end, they had to go
And returning was their last year at Jericho.

And yes, alas, my goodness, my dear
They were at the time of their final year.
So suave, so sophisticated, so extremely cool,
As they waited to hear from their first choice school.
Though some rejections, most got in
And there is where the fun begins.
'Cause being seniors the classes they took
The notes fit in just one spiral book.
And as they roamed the halls with no place to go
"It just doesn't matter" became everyone's motto!
With nothing to do, they caught up on the bull
Like Luke raping Laura on the Soap General.
And in spring there was prom, graduation, look, I'll
stop this fuss
But oh! can you believe that "they" were us?

Dear Kathleen,
We've known each other since grade school. You've always been a great friend. It was a lot of fun Candy ~~Sp~~ Striping with you. Remember that time you, Cindy, and me wanted to work on the same floor & then you two ran downstairs? We've had some really good times at the hospital. We would never go up to the floor until really late. Remember that time we were working at Mfo. and Denise got really mad? Best of luck in the future. You're a great person. Always keep in touch. Love,

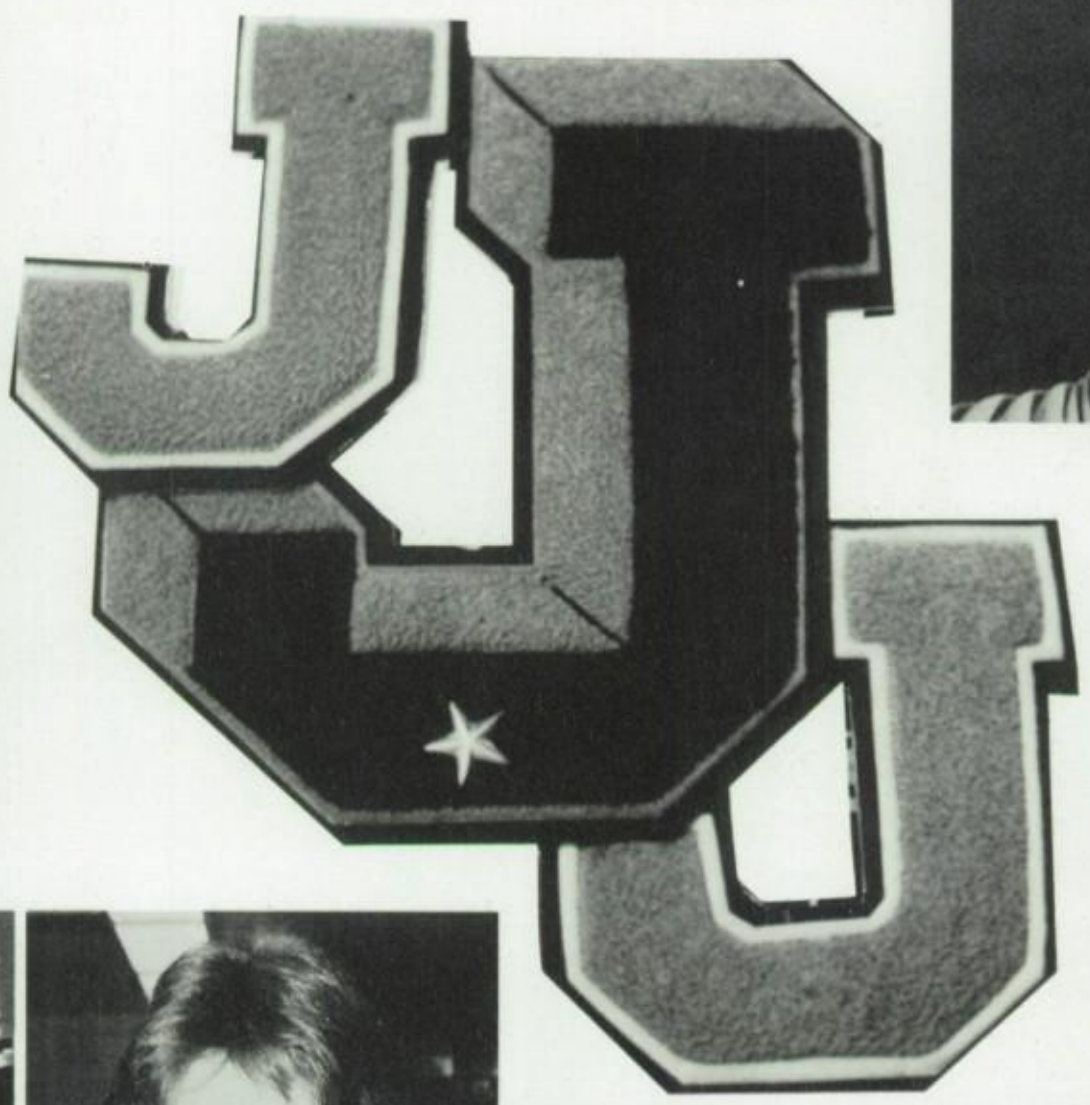
Look How We've Grown ...



JAN. 1981

Dear Diary,
I can't believe how fast the year is passing. Christmas Vacation is over and all that's left to remind me of it are the peeling suntans from FLORIDA and PUERTO RICO. all my applications are gone by now and all that remains is the "WAIT" for rejections (or HOPEFULLY... ACCEPTANCES!) We voted the other day and I wonder who won this years ....

Dear Cathy, 6-11-81

You're leaving us after everything? How dare you! Especially after beating Michele and I in the A.A.U. Regional tryouts 2 years ago.

Seriously, though, I hope college next year is really good and you succeed in whatever you do.

Good luck,
Love,

Come gather round people
wherever you roam
And admit that the waters
around you have grown
And accept it that soon you'll
be drenched to the bone
If your time to you is worth saving
you'd better start swimming
or you'll sink like a stone

Oh the times they are a'changing

Come senators, congressman please
heed the call
Don't stand in the doorway
don't block up the hall
For he that gets hurt
will be he that has stalled
The battle outside raging
will soon shake your windows
And rattle your walls

Oh, the times they are a'changing

Come mothers and fathers
throughout the land
Don't criticize what you can't understand
your sons and daughters are beyond your command
Your old road is rapidly aging
please get out of the new one
If you can't lend your hand.

Oh, the times they are a'changing

Come writers and critics
who prophesy with your pen
And keep you eyes wide
the chance won't come again.
And don't speak too soon
for the wheels still in spin,
And there's no telling who that
it's naming.
For the loser now will be later to win.

Oh, the times they are a changing

Best of Luck in a Peaceful Future
